Rémi Denimal

front-end developer - Brussels, BE

I'm Rémi, a front-end developer based in Brussels. I develop interfaces with a focus on accessibility, optimization, design fidelity, and user experience. I'm use to work with Angular, Wordpress, React, and Drupal. I'm also into creative development, webgl, shaders, and typography.

Experience

Walking Men - Brussels. BE
2019 - 2023 (front-end developer)

I was in charge of front-end development, mostly working with Wordpress & Angular and sometimes with Drupal & React.
I also had responsibility for creative development, interactions, animations, accessibility and optimisation.

Interact - Luxembourg. LU
2016 - 2018 (front-end developer)

At Interact I was in charge of front-end development, website integration and banners animations. I was working mostly with wordpress, laravel and gsap.

Education

HEAJ · Web & mobile design - Namur. BE
2012 - 2016

Skills

html, javascript, css, sass, webpack, git, wordpress, angular, react, node, tailwind, creative coding, webgl
